

GREEN POLICY

CAMBRIDGE CATS BASKETBALL CLUB; recognises that its activities may have a direct or indirect effect on the local and/or regional environment. Although this is potentially minor, we are therefore committed to reducing any harm that this may cause on the environment and as a sporting club with natural concerns over health and fitness, we will promote the understanding of sustainability and practices which can reduce any impact on the environment.

Our green policy is to regularly consider and look for ways we can adapt and change our operations and to link with other like-minded organisations.

We will focus on:

- Reducing waste
- Reusing materials at every opportunity
- Repair rather than throw away where we can
- Recycling
- Arranging venues wherever practicable, which reduce the need for transport and its impacts on the environment
- Manage travelling arrangements, to ensure minimum amount of vehicles used.
- Consider environmental impacts in our purchasing
- Utilise energies and water sparingly
- Endeavour to work with partner organisations (primarily sports hall hire) that share our green values
- Encourage our staff and members to be responsible, green citizens
